When bills amount to five dollars or over, we prepay express to any express office in the State.

Our stock of trees is much larger this year than ever before.

We have been experimenting here for thirty-two years. Those who patronize us get the benefit of our experience.

Unless otherwise instructed, we sometimes substitute a few varieties, but we guarantee everything to be what it is labeled and we will refund the cost of mislabeled trees, and pay additional damages also.

This climate is one of extremes. We use varieties that are better to withstand them.

The difference in the value of a crop of fruit from a good tree and a poor one is much greater than the cost of the trees. It does not pay to plant inferior stock, no matter how cheap.

Fruit is both a luxury and a necessity. Try an assortment of plums.

If it pays to raise corn and cotton, it pays better to raise what fruit your family can use.

Ornamentals in a yard, with a well kept orchard, tell of happiness and refinement in the home.

Orders are received at any time during the year, and delivered at any time between the 20th of November and 15th of March.

--- Descriptive Catalogue Free to all Applicants. ---
**FRUIT DEPARTMENT.**

**PEACHES.** Price 20 cts each, $16 per hundred.

**Clusters**—Originated in our orchards from Russian seed. The first two years the original trees bear more fruit than all the other varieties combined. It blooms late, but passes through six months fast spring after blooming and still bears an extremely crop. We believe it will bear that every year. Price, 50 cents each, $5.00 per dozen.

**PEARS.** Price 40 cts each, $32 per hundred.
